----------------	----------	---------	------	-----	--

Archives are available through FTP in standardized format described in the ReadMe.
VizieR tables are built from archives with additional transformations.

I/259 The Tycho-2 Catalogue (Hog+ 2000)
The following files can be converted to FITS (extension .fit .fgz or .fiZ)
tyc2.dat suppl_1.dat, suppl_2.dat index.dat
Note that most of the data files are gzipped; the uncompressed version can
be retrieved either using the gunzip program, or by omitting the
.gz extension (decompression on the fly, but increases the traffic)

Query from: <http://vizier.cds.unistra.fr/cgi-bin/VizieR?-source=I/259>

Go to ftp (/ftp/I/259) - web page (/viz-bin/cat?I/259) - Download all tables in tar.gz (/viz-bin/nph-Cat/tar.gz?I/259)
